

Gateway GTO Annual Winery Run

by Chris Winslow

We had our annual Gateway GTO Winery run this year at Montelle Winery in Augusta. This year's event was organized by our Chief Entertainment Officer, Marty Howard and we picked the weekend because one of our favorite performers, Arvell was set to be the entertainment for the afternoon. This time Arvell was part of a group, The Arvell Duo (which actually turned out really to be a Trio).

Unlike the horrible weather we had for our show at the Pontiac Museum, the weather was perfect. In addition, our members that had been on the East Coast cruise were all back by this weekend, and many of them attended.

We had arrived early so we were able to line up our GTO's in the first row, where they received a lot of attention. Getting there early allowed us to pull together some tables near the stage so we could see Arvell and company.

It was the first time that most of us had been able to talk to the members that had taken that month long east coast trip, so the afternoon gave us a chance to catch up and also hear the stories of from the trip. The good news was that while there were a few breakdowns along the way, for the most part the cars all did pretty well for such a long trip.

We also took advantage of the great music and nice afternoon to get in some dancing. Overall, everyone had a great time so it was another excellent event brought to us by our CEO Marty.
