

UPDATE #2

7/16/18

STREET LEGENDS CRUISE

We are just 6 weeks away from our GTOAA Route 66 Street Legends Cruise. Right now, we have 52 cars signed up with 97 people and we average 30 cars per day. Think about that. 30 vintage GTOs and Pontiacs all cruising Route 66 together.

Have you bought your **EZ66 Route 66 Guide Book** yet? You must get this before we leave on Sept. 17 as I do not have any extras and think about it. 30 Pontiacs cruising through Springfield, Illinois, Springfield, Missouri, Tulsa, Oklahoma City or Albuquerque, we will certainly get separated at numerous stop lights so you will need the EZ66 Guide to direct you to our next stop. No, you cannot call me or Don for directions and we cannot pull over and wait for you. Not with 30 cars in a group. You may want to consider bringing along a GPS device or your smart phone with mapping capabilities. If you get totally lost, load in the address of our next lunch stop or hotel and follow it. You will eventually find us again.

Don & I are planning a Drivers Meeting every morning at the host hotel. Here we will talk about the sights we hope to see and hand out any information that will be helpful in the days travels.

I hope each of you are "shaking down" your Pontiacs as this may be the longest drive you have ever made with it. Bring along extra special parts needed for your ride. Coils, Points, plug wires and a good set of tools you might need if you have a breakdown. Certainly, look into AAA plus as for about \$100, you can get towed up to 200 miles if necessary. I have also found a transport company that can pick up your ride and take it home for you if necessary. Passport Transport out of Lebanon, MO can be reached on 866-582-3185 and they will quote you a rate and you can schedule a pick up and delivery. It could be 7-10 days before they can get a truck to you.
